

PRODUCT

DécorMirror™ Oneway

One-way security mirror – for discreet monitoring & reduced sound transmission

Oneway mirrors are the kind of thing we commonly see in the movies. However, they serve a very real role in our society, for interrogation rooms, market research and many more practical purposes.

We created DécorMirror™ Oneway to provide a oneway mirror that offers high quality vision and effectively provides discreet, unobtrusive monitoring. It has the appearance of a mirror on the subject side, while providing privacy for observers.

DécorMirror™ Oneway is reflecting coated glass that has the appearance of a mirror on the subject side, while providing privacy for observers. It is also laminated to provide protection from human impact and reduces noise transmission.

DécorMirror™ Oneway provides protection from human impact and reduces noise transmission.

Considerations

- To achieve privacy for observers, a light ratio of 1:7 is recommended, where the subject side is brightly illuminated and the observer side is dimly lit. Bright lighting sources must be avoided in the observer's area and spotlights directed away from the **DécorMirror™ Oneway** surface. We recommend using dark furnishing colours and that dark clothing be worn in the observation area.
- **DécorMirror™ Oneway** is normally used for internal applications. For external applications and natural lighting situations where variable lighting conditions exist, the **DécorMirror™ Oneway** performance can be affected.
- Glazing should be in accordance with the Australian Standard AS1288, and Viridian recommendations for laminated glass.
- The bronzed silver reflective surface must be installed to the subject side.

Features and Benefits

- A safe and effective observation mirror for discreet monitoring.
- Appearance of a mirror.
- Laminated for safety.
- Low observer area lighting compared to subject area.
- Coating protected from scratching.
- Noise attenuation.
- Grade A Safety Glass.

Applications

- Windows

How to Specify

- **Select glass name**
DécorMirror™ Oneway
- **Select thickness – process**
8.76mm
